

SIMPLY CLEVER

ŠKODA

ŠKODA Citigo

Me and my girls.

Sharing notes on baby names, baby food and changing diapers had deepened our friendship. Now Eva and Anna were to inherit our friendship. We agreed to meet at the farmers market in Prague - an old childhood tradition of Martina and I. It was nostalgia. We retold memories to our daughters who were amused by their giggly mothers.

The day ended our adventures but only with a promise to do this again next week. Let's bridge them in the comfort of our new ŠKODA Citigo.

It happened one day.

Like love, friendship too needs refreshment at times. Rome promised a break from old routines and habits so we headed there hunting for surprises. Every winding street whispered an invitation. And just like that, new shops, new cafés and new experiences suddenly said hello. Our usual laughs were replaced by sheer amazement.

Then as we sat in the quaint Café de la Roma on a lovely square, reliving the magical day that had ended, we realised it hadn't. Watch who was sitting across our table*: The streets are waiting for us to discover them with the convenient CV sensor in our new ŠKODA Citigo.

* Scan the QR code with your smart phone to see what happens next.

The never ending song.

Being DJs was our excuse to make friends and meet fans of music. Before our regular jobs beckoned us back the next week, Fabian and I had two last gigs that Saturday night. The first one was a sell out. They loved us. The swelling Berlin fans queued up for us at the second club. Success followed us there too. As I started packing with bittersweet memories I couldn't believe my eyes. Our music idol teared through the applause that still filled the room. The biggest DJ on this planet was to become our saviour. Meet him on [facebook.com/skoda](https://www.facebook.com/skoda). Big fun needs big space. We are prepared with the large boot of our new ŠKODA Citigo.

A family by choice.

Home is a place I missed as an exchange student in London. A few others like me arranged a meet up in the endless greens of Hyde Park. It felt like meeting myself again and again. We all had similar stories to tell of life in pulsating London and of our homes we would soon return to. Frisbee, music and barbecue did the rest and those once strangers soon became friends. London suddenly didn't feel grey or cold anymore. For everyone else it was just another lazy Sunday in the park. For us it was the quickest flight back home. Friends are precious. I drive them home safely and comfortably in my new ŠKODA Citigo. Get our free Meet App:

A second first date.

Eighteen years of wedlock had deepened our love but faded the romance. Memories that began in Paris were begging to be revived. With our bikes on board, a long drive brought us to the city that had played cupid once upon a time. Days were filled chasing spots where we first held hands, first kissed and first said goodbye. Evenings took us to old friends who now, like us, looked different but had changed little since that summer. We didn't renew our vows. Instead we went into our past and brought it home as a souvenir. Some people just belong together. And so does the SKODA Citigo and the SKODA Genuine Accessories.

"THIS MUST BE A ŠKODA" will come to your mind upon first glance. Its distinct and confident design with a finned grille set in a chrome-plated frame, large windows and precisely shaped headlamps makes the new ŠKODA Citigo a proud and fitting member of the ŠKODA family.

The contours of the bottom window edges rise gently, giving the car a pleasant dynamic feel when viewed from the side. You can also choose **SunSet**: glass with a more pronounced tint for the rear, which will improve the exterior look and passenger comfort. The rear windows in the five-door version tip out. The car is also available in a three-door version.

The **electrically-adjustable panoramic sunroof**, which opens a large space over the front seats, increases the passengers' enjoyment of the ride. It is also a unique design feature.

The vertical fifth door is topped with an effective spoiler with an integrated extra stop lamp. The massive **rear bumper** gives the car the necessary amount of robustness.

The **tail lights**, located just over the bumper, are obviously based on a fresh design and functional concept. They feature an important detail: the C-shaped lighting, included in all the current ŠKODA models.

WHAT A NICE VIEW! Even if you don't look out of the window. The functional and well-designed dashboard of the Citigo offers a lot of what you are used to from ŠKODA.

The standard version comes with a **height-adjustable 4-spoke steering wheel**. For a more sporty style, you can get a 3-spoke leather steering wheel, combined with other leather accessories such as a gear stick knob and handbrake handle.

The **Funky radio**, featuring many functions including a music CD and CD-MP3 player, can be connected to the Move&Fun multifunctional mobile navigation.

The **combined instrument panel** has a pleasant backlighting. The specific feature of the Citigo is an on-board computer with a digital coolant temperature indicator.

"ALWAYS READY TO HAND" was the main idea behind the interior design concept of the ŠKODA Citigo. Wherever you look, you will find useful storage options, such as clever compartments and clever holders. Oh, and by the way, if you look upwards you will be rewarded with a very special view.

The **drinks holder** on the centre console is easily accessible to all passengers.

The **net pockets** on the sides of the front seats are practical for storing small items.

In the three-door version, the rear seat passengers can use **storage pockets** at the sides of the rear seats, which can also hold drink bottles.

Both the front doors have convenient **storage compartments** designed not only for maps and magazines but also 1-litre bottles.

The spacious **glove compartment** in the dashboard comes as open or lockable depending on the equipment version. When closed, a bag may be hung on a **foldable hook***.

Use the **clip on the dashboard*** to fix a photo or document you want to keep close at hand.

External appliances can be transported safely in the **multimedia bracket** located on the centre console.

Sunroof

Simply clever

The angle of the open rear door on the photo is illustrative only in order to present the spaciousness of the rear passenger seating area.

SMALL BUT SPACIOUS. What may sound like a contradiction actually describes the rear of the new ŠKODA Citigo perfectly. Its luggage compartment offers enough room for all the things you need in the city. And if you still need more space, the rear seats can be folded to expand the capacity to 951 litres and up to 2 metres in length!

There are four convenient **hooks** for hanging or attaching your bags at the sides of the luggage compartment.

In the basic arrangement, the **luggage compartment** has a capacity of 251 litres, which ranks it above average in its class.

The **double vertical net** will reliably prevent your stuff from moving around. Plus you will see clearly where you put things.

Large luggage compartment

Best in Class Passive Safety.

In addition to the **driver and front passenger airbags**, the standard equipment version includes special **Head-Thorax side airbags**, which can protect the heads and bodies of those in the front seats in a side impact.

"SAFETY FIRST" is the motto we always keep in mind when we build our cars. Especially the city with its stop-and-go traffic requires an elaborate safety concept. Therefore, the ŠKODA Citigo offers several new features in addition to the essential safety prerequisites. And that's why it also comes with a very special distinction: best in its class active and passive.

Best in Class Active Safety.

Fog lamps integrated in the front bumper spoiler contribute to increased safety in reduced visibility conditions.

Parking the Citigo is easy due to its excellent manoeuvrability. Moreover, you can be assisted by three **parking sensors** integrated in the rear bumper, which check the car's distance from any obstacles.

The unique **City Safe Drive system** is a novelty for safer driving in crowded city streets in particular. It has an emergency brake function and a CV (Closing Velocity) sensor, which monitors the traffic in front of the car within 10 m at up to 30 km/h. In case the driver fails to react to an obstacle in time, the system can prevent collision.

City Safe Drive

CO₂ emissions: 96 g/km
Fuel consumption: 4.1 l/100 km

The Citigo comes with a new 1.0 MPI/44kW or 1.0 MPI/55kW **3-cylinder petrol engine** with refined running, economic operation even at higher speeds and excellent acceleration. Both the engines are particularly suitable for city traffic but you will be pleased with their performance wherever you drive.

Cutting-edge **semi-automatic 5-speed transmission**, available for both the engine versions offered, provides easy and comfortable control.

Drivers who associate enjoyable driving with manual transmission may choose a conventional **mechanical 5-speed version**.

Semi-automatic transmission

LESS IS MORE. New technologies in the ŠKODA Citigo lead to lower CO₂ emissions to give you even more driving pleasure. And as the city is already loud enough, its engine also excels with an extraordinarily low noise.

The **decorative door sill foils** increase the attractive look of the car and protect the thresholds from damage.

Original textile or rubber **foot mats**, on offer in sets of four, help you keep the car interior tidy.

The **Move&Fun PID** is a multifunctional appliance combining the features of an on-board computer, navigation system and hands-free set. The prerequisite for complete connection of your PID with the car is the factory-installed extra equipment: preparation for the Move&Fun navigation system.

ŠKODA GENUINE ACCESSORIES include various products ranging from exclusive alloy wheels to mobile navigation, sunblinds, foot mats and luggage compartment equipment, to roof carriers as well snow chains, mechanical drive locking systems and child seats. To maximise the emotional look of your Citigo, we recommend the Sport Design package with a set of decorative foils and 15" Auriga alloy wheels in a metallic black colour, which can be ordered with your new car or later on. You can find more information and an overview of our products in the accessories catalogue, available from your authorised ŠKODA partner.

Nano interior in Ivory with a black/Ivory dashboard.

Nano interior in grey/black with a black dashboard.

BERLIN

General information

ŠKODA Service

Put your car in good hands. We give you good reasons to choose an authorised ŠKODA service partner.

We offer you first-class quality

Your car requires advanced technology. For this reason, all the ŠKODA authorised service partners have special tools and quality diagnostic systems at their disposal, which, in combination with the technological procedures prescribed by the manufacturer, ensure the perfect functionality and reliability of your car.

Professionally trained staff by the manufacturer

The ever-rising standard of the technology used in the car requires corresponding professional qualifications on the part of the staff. To meet this requirement, the manufacturer organises regular training for the staff of the authorised service partners in order to provide them with up-to-date information important for their activities.

Our motto: be fair and open with our customers

Careful, professional and friendly counselling for the customers upon acceptance of orders is of great importance to us in the same manner as diligence and completeness with respect to repairs and maintenance work. All this is continuously monitored by internal quality control of the provided services.

Comprehensive range of services:

› Service inspections

For your car to remain in top condition and functional for a long time it is essential to conduct all regular service inspections in accordance with the manufacturer's instructions, which can only be guaranteed if performed by an authorised ŠKODA service partner. The service schedule informs you when the service inspection must be done.

› Body and paintwork service

Damage to the body and painted areas following an accident will be fixed by your authorised ŠKODA service partner in an expert manner, in accordance with information from the manufacturer, using ŠKODA Genuine Parts. This is important not only for your

safety, but also for functionality and maintaining your car's value.

› Courtesy car

The authorised ŠKODA service partner can provide you with a courtesy car for the period of repair or service inspection.

› Pick-up and delivery service

If you are unable to take your vehicle to the ŠKODA Service, an authorised ŠKODA service partner will arrange a date with you to pick up the car. The car will be delivered back after the service work has been completed.

The listed services represent only a part of the wide range of ŠKODA Service offers, which may vary from country to country. Please contact your authorised ŠKODA service partner for further details and information on the range and specific conditions of services they offer.

ŠKODA Genuine Accessories

ŠKODA Genuine Accessories offer you child safety seats, roof rails, alloy wheels, sunblinds and more. For more detailed information on the complete ŠKODA Genuine Accessories range see the individual ŠKODA model catalogues.

ŠKODA Genuine Parts

Safety

ŠKODA Genuine Parts are identical to those used during the assembly of ŠKODA vehicles. The use of first-class materials and technologies guarantees safe and worry-free driving.

Availability

ŠKODA AUTO offers a complete range of parts and equipment items that are used in the vehicle's batch production and does not merely focus on high-turnover parts. ŠKODA ensures the provision of genuine parts even after the relevant model

is discontinued, and not only for the duration of the statutory period but for at least 15 years for the essential operational parts.

Long service life

The use of first-rate materials and production technologies in the manufacture of ŠKODA Genuine Parts ensure their maximum reliability and long life. As proof, we have extended the genuine batteries warranty to three years.

Environment protection

The ŠKODA Genuine Parts range includes exchange parts whose production has a low environmental impact in terms of waste, excess heat and water contamination.

Information on the internet

Information is available at www.skoda-auto.com to assist you in deciding which vehicle suits your needs, thanks to the detailed descriptions and photographs of all our models.

ŠKODA Finance

ŠkoFIN offers solutions for both individuals and businesses. You can learn about the current offer through any authorised ŠKODA partner. The credit or lease contract can also be concluded directly with the car dealer.

Global fleet

The ŠKODA AUTO Global Fleet Services offer B2B fleet solutions to customers with all kinds of requirements. A fleet made up of ŠKODA cars offers unmatched roominess, long-lasting quality, safety, low total costs of ownership and, as a result, excellent value for money. You can find more information about our products and services at www.skoda-auto.com/fleet.

One of the most important goals of ŠKODA AUTO is the development and manufacture of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our ŠKODA cars are produced using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cathaphoresis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines we offer meet the current emission regulations. All ŠKODA products are made using manufacturing processes that adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, ŠKODA cars meet technical, safety, quality and environmental requirements. ŠKODA AUTO contributes to the preservation of a clean environment and provides mobility and comfort to its customers.
