WIP

THE ALL-IN-ONE CAR FOR YOUR ALL-IN-ONE LIFE

A stylish compact SUV, the new ŠKODA KAROQ is eager to accompany you on every adventure imaginable. Packed with state-of-the-art connectivity and safety systems, it can turn even an ordinary commute into a fashionable excursion. And being the latest embodiment of ŠKODA's crystalline design language, the KAROQ can turn the week into weekend with eloquent ease.

The KAROQ is yet another example of our philosophy of making beautifully designed cars that are as much a joy to drive now as they were back when we started.

That's Simply Clever. That's ŠKODA.

WIP

EXTERIOR DESIGN

FORM FOLLOWS FUN

Inspired by our heritage of Czech crystal, with its elegantly sculpted lines, our new SUV bears the same levels of refinement. Its multi-purpose design ensures you look good on any adventure.

FRONT VIEW

The KAROQ model with a typical ŠKODA grille evokes feelings of strength and safety. The front is dominated by sharply cut headlamps and fog lamps, which are located at the height of the grille confirming the car's off-road ambitions.

SIDE VIEW

While the angular wheel arches and protective sill covers accentuate the car's SUV character, the continuous play of light and shadow defined by the ŠKODA design language puts emotion and grace into the KAROQ's appearance.

PANORAMIC SUNROOF

The electrically-adjustable panoramic roof window, which allows you to create a large open space above the front seats, will enhance the attractive look of the car and give more pleasure to all passengers. You can enjoy new vistas, as well as the feeling of freedom and space.

REAR VIEW

The distinctive wedged-shaped rear lights, also with the familiar C-shaped illumination, reference the Czech crystal glass-making tradition. They are divided into parts. While the first penetrates into the side, the second is integrated into the 5th door. Cat's eye reflectors for better visibility of the car are situated deep in the rear bumper to protect them from damage. The KAROQ model also features the robust protective cover.

WIP

LIGHT DESIGN

LIGHT THE WAY

The evocative design lines of the KAROQ influence the exterior lights too. The top offering comes with a complete LED system without compromising on form and function.

FULL LED HEADLAMPS WITH AFS AND FOG LAMPS

Two types of headlamps and fog lamps are available for the KAROQ. The top-end option is all about LED technology. The LED headlamps offer high-performance and high energy efficiency. The AFS (Adaptive Frontlight System) adjusts the lighting intensity to specific conditions (e.g. city, motorway or driving in the rain), while the main headlamps boast an eye-catching integrated strip of LED daytime running lights. Under poor light conditions the LED fog lamps come into their own, ensuring your maximum safety.

LED REAR LIGHTS

Just like the remarkable rear lights, even the license plate is equipped with LEDs. Crystalline elements appear in the 'inactive' area of the rear lights.

WELCOME LOGO

The LEDs located on the underside of the front doors, creating the ŠKODA inscription, illuminates the entry area. This feature is always offered as part of the LED pack in combination with ambient lighting.

INTERIOR DESIGN

ACCESS MISSION CONTROL FOR ANY MISSION

We've turned the car into a cockpit. The beautiful, yet practical digital display takes all the information you need and puts it where you need it most – right in front of your eyes. Be it driving information, navigation, infotainment or communication services, it's all there, all the time.

DIGITAL INSTRUMENT PANEL*

A perfect overview is provided by the Digital Instrument Panel which can display on-board computer specifications in combination with other information such as navigation for example. You can choose from four layouts, controlled via the View button on the multifunctional steering wheel – the Classic view, Extended view, Modern view and Basic view (suitable during night driving or on the motorway).

Classic view

Basic view

Modern view

Extended view

* Available from 2018.

BEAUTY LIES IN DETAIL

Make your space even more cosy and comfortable with soft, harmonious LED ambient lights running along the inside of the car, setting the perfect mood for any journey.

AMBIENT LIGHTING
It's up to you to choose a favourite colour or to complement each day with a different tone. The dashboard and front door LED ambient lighting, supplied as part of the LED pack, offers ten appealing colour options. The foot area illumination in white also comes with the LED pack.

CONNECTIVITY

WIP

ŠKODA CONNECT: CONNECT WITH ALL YOUR WORLDS

Stay connected wherever you are. Being fully and permanently online means not only having access to entertainment and information, but also possible assistance while on the move. ŠKODA CONNECT is your gateway to a world of unlimited communication possibilities.

ŠKODA CONNECT

This offer includes two categories of service. While Infotainment Online delivers real-time information to navigation, about traffic for example, Care Connect focuses on help and safety, enabling remote access and control of the vehicle. It also offers an assistance service for any situation that needs it.

PARKING POSITION

Retrieve the exact location of your car in large car parks from anywhere, by displaying the address, time and date of parking on your mobile phone.

DRIVING DATA

Information about your journey, such as average consumption, average speed, distance and journey time, is stored. You can display your personal driving data and have an overview of all your trips.

EMERGENCY CALL

The SOS call is placed automatically during an emergency where the restraint system has been activated. This emergency system can also be activated manually by pressing the red button on the roof console.

ONLINE TRAFFIC INFORMATION

Always take the best route: up-to-date information gives you a perfect overview of every trip. It also enables you to react to new developments, such as roadworks, accidents and traffic jams.

PETROL STATIONS

You can find out the distance, petrol station type, and the current fuel prices. This information is displayed in real time. The fuel type of the vehicle is automatically detected and displayed.

WEATHER

Get the latest weather report for your current location, destination or anywhere else with detailed forecasts, including precipitation predictions and warnings.

TAKE THE ONLINE WORLD WITH YOU

Infotainment has moved on in leaps and bounds: You can look forward to an attractive design and plenty of amazing functions, while the KAROQ seamlessly syncs with your external devices. Better still, your kids will never get bored on a journey.

MyŠKODA APP

Meet Paul, the interactive assistant of the MyŠKODA App (for Android and iOS systems), who can provide help in various daily situations. You can use him to access

information about your car or for a complete description of what controls what, what each warning lamp means, etc. Paul can also keep an eye on the dates in your planner. Not only will you never forget a meeting, but your assistant will also advise you on how to get there.

PHONE BOX

This practical phone compartment, located in front of the gear stick, creates an amplified signal for your mobile device. At the same time, it wirelessly charges your phone while driving.

SMARTLINK+

With the SmartLink+ system (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay, Android Auto) the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto. The SmartLink+ system also includes the SmartGate function. It enables you to connect your smartphone to the car via cable to access interesting data about your drive, like driving economy, driving dynamics or service information. (Visit our website for usage terms and compatibility information for SmartLink+.)

COLUMBUS

The new Columbus navigation system features a 9.2" display and 3D view. The device offers not only comfortable touch control, but also gesture control, which enables you to go through the menu or various lists. Many functions, including Bluetooth, the SmartLink+ system and WiFi, come as standard. The integrated phone module with fast LTE Internet compatibility is also available.

MULTIMEDIA HOLDER

There can only be one driver but those in the back can enjoy the drive just as much. The multimedia holder enables you to securely fit a tablet to the front seat headrest.

CANTON SOUND SYSTEM

Enjoy absolute sound clarity, whether it's music or the spoken word, on the Canton Sound System with ten speakers, including a speaker in the dashboard and subwoofer in the luggage compartment. The total power output is 575 Watts.

**SIMPLY
CLEVER**

WIP

PACK A LOT IN

Take a look inside and you'll find plenty of storage spaces and compartments. There is a place for everything and everything in its place – phones, glasses, refreshments and all your other daily essentials.

GLOVE COMPARTMENT

Thanks to the closed storage compartment in the lower part of the dashboard by the front passenger, which can be air-conditioned, you have, for instance, a place to store pleasantly chilled refreshments during your travels.

JUMBO BOX

The spacious storage compartment is housed in the front armrest. You can, for example, store your electronic items safely inside. The Jumbo Box can also be equipped with a coin holder and two drinks holders with Easy Open function.

UNIBAG

When using the removable Unibag designed for transporting skis or a snowboard, you can fold down the middle seat's backrest, while maintaining comfortable rear seating for two passengers.

FOLDABLE BACKREST

The foldable backrest of the front passenger seat gives the car even greater variability and allows you to transport objects with extraordinary dimensions.

FOLDABLE TABLES

Built into the backrests of both front seats, the foldable tables with drink holders can be used for more than just refreshments.

FRONT DOOR COMPARTMENTS

You will find a 1.5-l bottle holder and a rubber strap in a spacious compartment in the front door. This is also where you can place a removable waste basket.

REFLECTIVE VESTS

The vests can be located in the storage compartments in the front and rear doors, ensuring they are always within reach.

GAIN HANDS-FREE ACCESS

No more awkward moves trying to open the boot when you have your hands full. Now loading your luggage or folding a towing device can be simple, and even fun.

VIRTUAL PEDAL

How do you open or close the luggage compartment when your hands are full? Just swipe your foot underneath and, hey presto, it will open or close for you automatically. The virtual pedal enables contact-free access and is available exclusively with the electrically controlled 5th door and KESSY (Keyless Entry, Start and exit System).

ELECTRICALLY CONTROLLED 5TH DOOR

It opens and closes at the mere touch of a button on the remote control or in the driver's door, especially handy in unfavourable weather. You can also adjust the upper door position to suit your needs. A button for closing the 5th door is also located on the door itself.

ROLL COVER

Easy access to your luggage is provided by the roll cover, which can be fixed to the 5th door. When you open this door, the cover lifts with it.

TOWING DEVICE

The KAROQ has a foldable towing device with electric release. The switch is in the luggage compartment.

LUGGAGE COMPARTMENT

WIP

LET YOUR LUGGAGE ROCK, NOT ROLL

The KAROQ's luggage compartment features a lot of space and practical elements, which help keep the car tidy and prevent things from moving. The car with standard rear seats (featuring 40/60 folding split) offers 521 litres of luggage space and 1,630 litres with the rear seats folded down.

HOOKS

The robust foldable hooks, located on the sides of the luggage compartment, make your bags easier to transport and more secure.

CARGO ELEMENTS

To avoid any undesired movement of luggage while driving, these are stowed away in the compartments behind the rear wheel arches when not in use.

DOUBLE-SIDED CARPET

You can use the carpet with the elegant fabric side up when not transporting anything that might make your car dirty, and can easily turn it over to utilise the washable rubber side when required.

DOUBLE FLOOR

The double floor places the bottom of the luggage compartment on the loading edge level, facilitating easier luggage handling. In addition, it provides a discrete storage place.

NET PROGRAMME

One horizontal and two vertical nets increase the flexibility of the luggage space while firmly securing objects.

LIKE YOGA FOR CAR SEATS

The VarioFlex rear seating system is comprised of three separate rear seats. You can fold down each one independently, as well as remove them completely. With the seats folded down, you gain a luggage area with a capacity of 1,605 litres, and 1,810 litres by removing them.

VARIOFLEX OPTION

If you need to maintain rear seating for passengers, you can fold down a single backrest.

VARIOFLEX OPTION

One of many options is to fold down the outer rear seats.

VARIOFLEX OPTION

Another option is to fold down one outer and the middle rear seat. To enlarge the luggage area, you can tilt all the rear seats towards the front (not shown), allowing you to remove them easily.

VARIOFLEX OPTION

Remove one or two rear seats completely to gain a large luggage area, while still carrying passengers in the rear. The operation can easily be performed by a single person and without the need for any tools.

COMFORT

WIP

EVERYTHING AT YOUR FINGERTIPS

Even a tiny button can hide a sophisticated system with incredible utility. Using advanced technology, comfortable elements provide a more enjoyable drive as well as a safer one.

KESY

Cars equipped with KESY (Keyless Entry, Start and exit System) feature a Start/Stop button on the steering column for keyless ignition and switching off the engine.

STEERING WHEEL WITH HEATING

The multifunctional leather steering wheel, which lets you control the radio, phone and alternatively DSG (Direct Shift Gearbox), can be equipped with heating function, controlled via the infotainment system.

PERSONALISATION OPTIONS

The infotainment system allows different drivers to create their own individual preferences. These include, for example, setting the driving mode, the electrically-adjustable driver seat, air conditioning, radio and navigation system. A personalised car is provided with three keys. When the key is used to unlock the car, the functions are automatically adjusted to the driver's saved settings.

CRUISE CONTROL

In addition to maintaining the preselected speed, cruise control enables you to increase or reduce speed without using the pedals.

DUAL-ZONE CLIMATRONIC

The Climatronic dual-zone air conditioning with electronic regulation is fitted with Air Care allergy filter as well as a humidity sensor, which reduces windscreen misting.

DRIVER SEAT WITH BUILT-IN MEMORY

The electrically-adjustable driver seat with built-in memory can store three different seat and external side-view mirror positions.

LED BOARDING SPOTS

The boarding spots with LEDs, designed to illuminate the entry area, are located on the external side-view mirrors.

**RETRACTABLE MIRRORS**

The automatically retractable external side-view mirrors fold in when the car is locked, thus protecting them against damage.

**HEADLAMP WASHERS**

Integrated telescopic headlamp washers easily take care of dust and mud.

**REAR PART OF THE JUMBO BOX**

On the rear part of the Jumbo Box you can find a 230 V socket and USB slot.

SAFETY

WIP

PUT EXTRA EYES ON THE ROAD

Travelling is much safer with an alert co-driver. Thus the KAROQ comes with plenty of assistants allowing you to react to various situations promptly. Some of the systems can even prevent an impending collision all by themselves.

AUTO LIGHT ASSIST

Your Light Assist will automatically switch to high beam and back, increasing comfort and safety in traffic.

ADAPTIVE CRUISE CONTROL

Using a radar device in the front grille, this assistant system maintains a safe distance from vehicles in front of you, in addition to its basic cruise control function.

TRAVEL ASSIST

This helper uses co-operation between the multifunctional camera and the navigation system to recognise and display certain traffic signs on the navigation and Maxi DOT/Digital Instrument Panel screens.

LANE ASSIST

You can leave the task of keeping the car in the correct lane to Lane Assist. The system is displayed on the Maxi DOT or Digital Instrument Panel.

PARK ASSIST

Minimise the hassle of parking in tight spots with Park Assist. It automatically selects an appropriate parking place in a row of parallel or perpendicularly parked vehicles.

BLIND SPOT DETECT

Using radar sensors in the rear bumper, Blind Spot Detect monitors the hidden areas behind and beside the car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver.

REAR TRAFFIC ALERT

This assistant, which comes as part of the Blind Spot Detect system and uses the same radar sensors, helps you reverse safely from a parking space during poor visibility. It can even engage the brakes automatically if it detects imminent danger.

TRAFFIC JAM ASSIST

The function is designed to facilitate the driving of DSG-fitted vehicles in traffic jams. By controlling the engine, brakes and steering, it makes the vehicle pull away, brake and turn to copy the movement of the surrounding vehicles (at speeds of up to 60 km/h).

EXPERIENCE 360-DEGREE PROTECTION

In extreme situations, where the driver cannot actively influence the outcome, the car's passive safety elements take over – like the airbags. You can have your car equipped with up to nine of them.

FRONT AIRBAGS

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard. If needed, this can be deactivated when a child seat is installed on the front seat.

HEAD AIRBAGS

Upon activation, head airbags create a wall protecting the front and rear occupants against head injury.

FRONT AND REAR SIDE AIRBAGS

These four airbags protect the pelvis and chest of the driver and other passengers in the event of a side collision.

ELECTRIC CHILD SAFETY LOCK

Just one push of a button and your children's journey will be even safer. The child safety lock will prevent them from opening the rear windows and doors.

PERFORMANCE

WIP

PERFORM ON ANY STAGE

All engines on offer have a lot in common. They are modern, dynamic and economical. This makes the KAROQ feel as much at home in the city as it is in the wild.

DYNAMIC CHASSIS CONTROL*

The Dynamic Chassis Control (DCC) continuously evaluates and responds to various driving situations (braking, acceleration, turning), adapting the damping and steering characteristics. DCC always comes in combination with Driving Mode Select and allows you to choose Comfort, Normal or Sport mode.

* Available within the first half of 2018.

PETROL ENGINES

You can choose between a 3-cylinder 85 kW and 4-cylinder 110 kW engine, which also come in the version with ACT (Active Cylinder management Technology). This system disconnects 2 cylinders when not needed, considerably reducing fuel consumption.

TRANSMISSION

Depending on the engine version, the car can be equipped with manual 6-speed transmission as well as automatic 7-speed DSG (Direct Shift Gearbox).

DIESEL ENGINES

Our offer includes 85 kW, 110 kW and 140 kW* engines. With regard to the environment and emissions standard (EU6), our diesel range (except for the 85 kW engine) uses Selective Catalytic Reduction. This system injects AdBlue® to reduce mono-nitrogen oxides (NOx). The volume of the AdBlue® tank is 13.7 l and consumption depends on the driving style.

GET A GRIP ON ANY TRIP

Whether you're crossing mountain trails or zigzagging through city streets, the KAROQ will keep you glued to the road. Just fasten your seat belts, select the driving mode and conquer the terrain below you.

ALL-WHEEL DRIVE

The 4x4 drive is provided by an electronically controlled inter-axle clutch. The coupling of the rear axle is automatic, so under normal conditions the car can utilise the advantages of front-wheel drive, and under extreme conditions the excellent traction of the 4x4 drive.

DSG AND 4X4

Whatever the conditions throw at you, enjoy absolute comfort and fuel efficiency with 4x4 drive and automatic 7-speed DSG (Direct Shift Gearbox).

WIP

CUSTOMISATION

AMBITION

The standard equipment of the Ambition version includes external side-view mirrors (electrically-adjustable and heated) with boarding spots function and door handles in body colour, black roof railings, leather steering wheel and gear stick knob, Jumbo Box, umbrella storage compartments in the front, net programme in the luggage compartment and more.

ACCESSORIES

WIP

ADD MORE CAR TO YOUR KAROQ

A specific lifestyle needs specific car equipment. ŠKODA Original Accessories, which can increase the safety, practicality and charm of your car, are the best solution. To see our complete offer, contact your nearest authorised ŠKODA partner.

BACK SEAT PROTECTION

You will certainly utilise and appreciate the back seat protection, so you no longer need to worry about the cleanness of your car. The cover is sufficiently sized to cover the area of the back seats in order to protect them against shed hair and dirt from transported animals.

LTE CARSTICK

The LTE CarStick enables fast and reliable Internet connection. With the LTE CarStick in place, you can comfortably find the nearest petrol station, book a hotel room or reply to an urgent email while travelling.

SMART HOLDER - CLOTHES HANGER

The clothes hanger, which can be mounted to the front seat headrests, is an extremely practical accessory, especially for those who travel to work wearing a suit.

SMART HOLDER - HOOK

Handbags or backpacks don't have to take up space on the back seats. Hang them from the smart holder hook fixed to the front headrests.

SMART HOLDER - MULTIMEDIA HOLDER

The holder for an external device, which can be mounted on the front seat headrests, will definitely be appreciated by the rear seat passengers.

WIP

BICYCLE CARRIER FOR A TOW BAR

The rack is extremely sturdy, easy to fit and easy to use – you simply need to lift the bicycle up a little to secure it in place.

TRANSVERSE TRUNK GRILLE

Is primarily designed with people who want to transport bulky goods in mind. The grille is fitted directly behind the rear headrests and prevents unsecured items in the luggage compartment from entering the passenger compartment.

DOUBLE-SIDED BOOT MAT

This classic example of a multipurpose accessory helps to keep the luggage compartment clean and pleasant.

NETTING SYSTEM

In the luggage compartment you will find hooks for the netting system to help you keep everything tidy in the car and prevent luggage from shifting when the vehicle is on the move. Nets are also available in black.

ŠKODA BRANDED GOODS

Choose from our original collection of gift items, which have a lot in common with the KAROQ model. They are as stylish and ingenious as they are comfortable. For more ŠKODA branded goods, come and visit eshop.skoda-auto.com.
