ŠKODA

ŠKODA OCTAVIA RS 230

120 ŠKODA AUTO
YEARS SIMPLY CLEVER
SINCE 1895

The New ŠKODA Octavia RS 230. Feed your need for speed.

Taste the adrenaline zip down your veins when you unleash two hundred and thirty horses at the push of your right foot. Feel the goose bumps as you blur the world from 0-100 km/hr in 6.7 seconds. Enjoy the thrill of having power under your complete control with the Electronic Differential Lock.

This Octavia RS doesn't just go fast, it looks fast too, with sports styling and 19" Xtreme alloy wheels. Besides, plenty of Simply Clever features make even the swiftest journey an enjoyable one.

This car is yet another example of 120 years of forward thinking. It means being passionate about making quality cars that are as much a joy to drive now as they were back when we started.

Because looking back on our eventful history inspires us to look ahead.

That's Simply Clever. That's ŠKODA.

DESIGN

Whether you view the car as a whole or explore the exterior features individually, prepare yourself to be awed and thrilled in equal measure.

The black backfill of the Bi-Xenon headlamps is an unmistakable detail of the car. The fog lamps in the RS perfectly complement the dynamic front. The sports styling is further emphasised by the cellular grid in the front bumper and by glossy black elements such as external mirror covers, front grille frame and, for the combi version, roof railings.

The exhaust pipe end pieces in glossy black finish have been specially tuned to produce the engine's characteristic sporty sound. The liftback version with a panoramic roof features a 5th door spoiler in glossy black colour, which increases the stability of the vehicle at faster speeds.

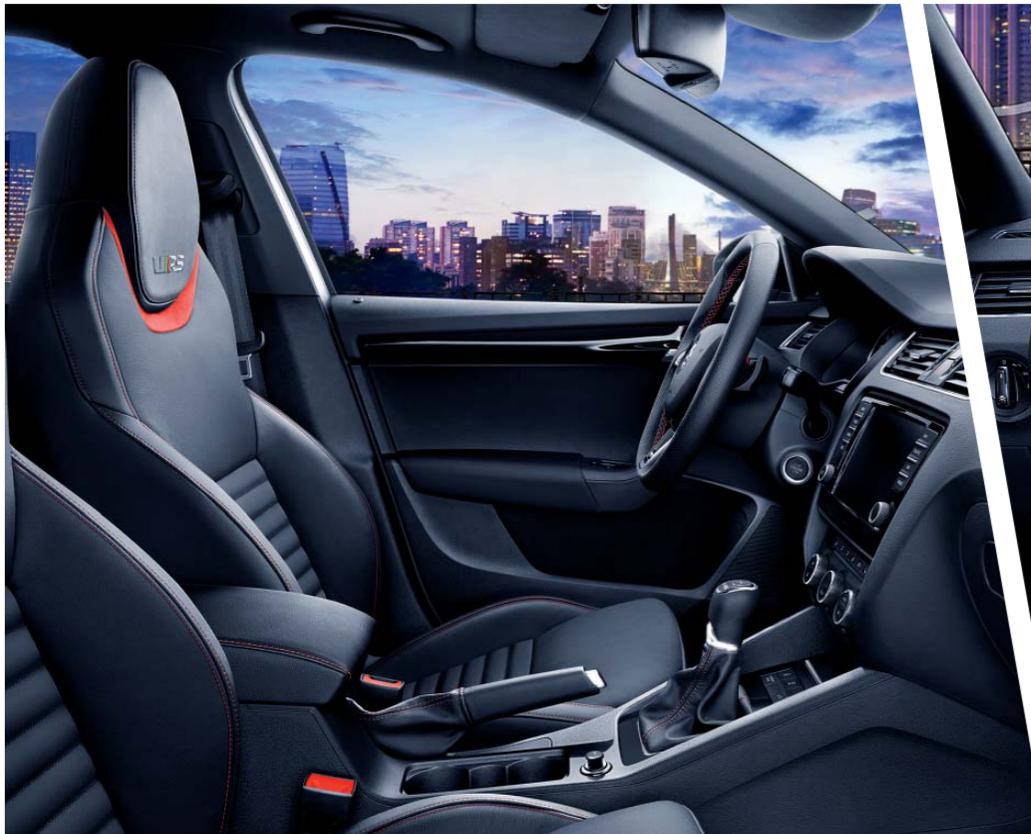

The decorative door sill strips with an RS inscription accentuate the character of the car as well as increase its practicality.

The exclusive 19" Xtreme alloy wheels in glossy black colour further enhance the strong impression.

INTERIOR

While the driver enjoys the thrill of a sports ride, the passengers indulge in absolute comfort, that can be seen as well as felt.

The interior in combination of leather / artificial leather is adorned with red double stitching and with decorative trims in black colour. The electronically-adjustable sports front seats are equipped with memory function and can store three different positions of the seat and external mirrors.

The 3-spoke sports multifunctional steering wheel, wrapped in perforated leather with red stitching and marked with an original RS plaque, enables control of the radio, phone and automatic DSG (Direct Shift Gearbox).

The Performance Mode Selection includes the Performance Sound Generator function, which allows the sound of the engine in the cabin to be set to the normal, eco or sport mode.

Ensuring a pleasant climate in the car interior is an easy task for the Climatronic, dual-zone air conditioning with electronic regulation, fitted with a humidity sensor, which reduces windscreen misting.

The instrument panel in the RS has a legible white interface. The attractive Maxi DOT colour display also offers a LapTimer function, which further adds to the feel of a sports drive experience.

The noble steel foot pedal covers are yet another stylish detail of the comfortable interior.

LUGGAGE COMPARTMENT

Along with an extraordinary driving experience, you can look forward to an exceptionally large luggage compartment filled with features that maximise its variability.

The double foldable hook, which keeps your bags upright, can be found on both sides of the luggage compartment.

The net programme consists of one horizontal and two double-sided vertical nets. In addition, you can fit a net under the luggage compartment cover in the liftback version.

Everyone has the occasional need to load dirty luggage. The double-sided mat in the luggage compartment enables you to switch between an elegant fabric and washable rubber.

The mid-level luggage compartment floor of the combi version facilitates easier luggage handling by placing the bottom on the level of the loading edge. It further provides a suitable storage space for the roll cover or roof rack.

SIMPLY CLEVER

Sports style and practicality are not mutually exclusive. The interior features many ingenious details which make travelling more pleasant for all passengers.

The multimedia holder located in the centre console is not only a practical accessory but also a safe place for transporting your iPod, mobile phone etc.

A useful pocket can be found under the roll cover of the luggage compartment of the combi version.

Reflective vests can be stored in special compartments under both front seats, ensuring they are immediately within reach in case of need.

You will find a 1.5-l bottle holder in a spacious compartment in the front door. This is also where you can place a removable waste basket to help you keep the interior clean.

Technical specifications

Engine	Type	Transmission	Combined consumption and CO ₂ emissions
2.0 TSI/169 kW	petrol	manual 6-speed	6.2 (6.3*) l/100 km, 142 (143*) g/km
2.0 TSI/169 kW	petrol	automatic 6-speed DSG	6.4 (6.5*) l/100 km, 146 (147*) g/km

* Combi version.

The two hundred and thirty horses under the bonnet of your new Octavia RS 230 must be kept on a tight leash in all circumstances. This is why the car is equipped with the active Electronic Differential Lock of the front axle. It maximises traction, reduces understeering and adds agility. This innovative solution will give you full control over the car during sporty driving and faster acceleration during turns.

One of the most important goals of ŠKODA AUTO is the development and manufacture of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our ŠKODA cars are produced using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cathaphoresis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines we offer meet the current emission regulations. All ŠKODA products are made using manufacturing processes that adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, ŠKODA cars meet technical, safety, quality and environmental requirements. ŠKODA AUTO contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses ŠKODA AUTO's awareness of, responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature.
